

Andrii Yevchenko

React Developer

ABOUT

I'm a React front-end developer from Ukraine with about 2 years of programming experience. I'm looking for development opportunities in a company where I can apply my skills and contribute to modern development. I'm ready to quickly learn new technologies and adapt to the needs of the project. I want to work in a team and contribute to its success.

EXPERIENCE

React Developer

Dec 2023 - Present - 1 year

Developed projects and worked with technologies such as React, Zustand, CSS Modules, Tailwind CSS, and Vite. Worked in a team using the Agile methodology on Azure and GitHub platforms, completing tasks according to the documentation and creating pull requests. As a front-end developer, developed an application for creating and completing test tasks. Also developed and deployed websites, automating deployment processes using GitHub Actions and Azure DevOps.
